

Complementary & Alternative Medicine (CAM) Lecture Series

Jill James, Ph.D.

“Research update: Oxidative stress and the metabolic pathology of autism

Dr. James will be reviewing her recent research into the metabolic imbalance in children with autism and their mothers that may contribute to the development and symptoms of autism, and will discuss implications of this research on treatment options.

Thursday, February 11th, 2010
Wilson Education Building
UAMS
1st Floor Lecture Hall
Hooper and Markham Streets
Little Rock, Arkansas
6pm—8pm
